

Currently, there are several benches at Kihei Kalama Park ready for sponsorship. Some of those benches may be sponsored totally and others may be 'shared benches', where more than one party may sponsor them. There are two new benches scheduled for installation at Kama'ole II, both to be designated as 'shared' benches. At this time, there are no available benches at Kama'ole III.

The donation for total bench sponsorship is \$750 and is for a period of 5 years, after which additional sponsors may be added to the bench unless the original donor wishes to fund an extension. The donation for designated 'shared benches' which will eventually have up to six stainless steel plaques placed per bench is \$350.

Benches are the property of the Parks Department and there are no guarantees stated or implied concerning how long the bench or plaque may last. The donation helps sponsor the bench program and other projects benefitting the parks of Kihei.

The sample plaque mock-ups displayed in this document show the style. The standard italic font cannot be altered to another font. The blank plaque displays the bottom line which will appear on all plaques. An engraved image may be included for no additional charge. Prior to actual engraving, a mock-up of your plaque will be emailed as a 'proof' and opportunity for any final amendments.

The first step is to express your interest and write us an [email](#) to check availability. Include what text you desire on the plaque. We will help guide you with both text and image, as needed.

After confirming availability, your check should be made payable to South Maui Volunteers if you don't need the tax receipt. If a receipt is desired, please contact us for more information.

Please mention 'Bench Plaque' in the memo line and mail the check to:
